THE DAY'S OPERATIONS IN STOCKS.

There was a further contraction in the volume of dealings in stocks yesterday. From the opening and for the better part of the day dulness prevailed, but with prices firm and in some instances improved. Then followed a pressure to sell, under which prices sank. The closing was weak, with prices for a majority of the active stocks at or not far from the lowest point of the day. Undoubtedly the development of weakness in the late trading was due to information of large engagements of gold for export by steamers sailing to-morrow and Saturday. While it had been expected that considerable gold would be shipped this week, nothing like the outgo that now seems probable had been looked for. There has as yet been no sufficient explanation of the departure of so much gold at this time. The gold is going to Paris on orders from London, so that the real reason exists, presumably, in the relations between Paris and London. Many American securities have undoubtedly

been returned recently from London, and these have to be paid for, but this is something which does not explain why gold goes from New-York to Paris, instead of to London. A fair amount of unfinished iron has been purchased in Germany for importation to the United States, and this iron has to be paid for, but there is at present no sign of a transfer of gold from New-York to Berlin. London is 10

there is at present no sign of a transfer of gold from New-York to Berlin. London is plainly indebted to Paris, but plainly, also, it does not wish to part with gold which it holds and it accordingly puts the burden of supplying the gold upon New-York Money has been so cheap at New-York that it has not been difficult to obtain gold here. The exportation of gold can be checked by raising the rates for money, and that course very likely will be adopted if the outflow of gold becomes actually threatening, but this would interfere more or less with speculative operations.

The cause of the liquidation and decline in price in Missouri Paclic stock in the last few days has been revealed in the financial statement of the road for January. A decrease of only \$39,000 in gross income is reported, but an increase of \$482,000 in operating expenses is shown which effected a decrease of \$50.1, in net earnings, as compared with the same month in 1901. These figures are estimates, but they were given out officially. Missourl Paclic stock had another sharp fall yesterday, in which it was accompanied by St. Louis Southwestern and Texas Paclic, two other so-called Gould stocks. The Wabash stocks, likewise Gould stocks, were steady. The extensive purchases of Wabash debenture B bends continued, but at somewhat lower prices. Union Paclic, Southern Paclic, Baltimore and Ghio, Pennsylvania and Reading were the stocks on the rail road list that were most liberally dealt in. The changes in the prices of these stocks were not important. The United States Steel stocks lost fractionally in price. Tennessee Coal and Iron recoded on what were said to be sales by the pool in the stock. Amalgamated Copper was rather freely sold. Sugar Refining, too, was pressed for sale.

EXPORTS OF MERCHANDISE.

WALL STREET AND EXCHANGES.

FOREIGN TRADING.-London was a buyer i Baltimore and Ohio, Atchison and Southern Pacific Its sales were small. The disposition in London toward American stocks was said to be more favor

STOCK LOAN QUOTATIONS.-Loan quotations Amaigamated Copper, Anaconda, Atchison commor and preferred, Brooklyn Rapid Transit, Baltimorand Ohio common, Chicago Terminal, Delawar, and Hudson, Erie common, first and second pre ferred, Louisville and Nashville, Manhattan, Mis souri Pacific, New-York Central, People's Gas 380,492 Reading first preferred, Republic Steel common ar

preferred, Rock Island, St. Paul, Southern Railway preferred, Southern Pacific, Sugar, Tennessee Coal and Iron. Union Pacific common and preferred, United States Steel common and preferred, United States Leather preferred, Wabash preferred and

Western Union, 24g per cent. MONEY FIRMER.—The banks yesterday with-drew their low rates for call money. Time money was nominally unchanged at 4 per cent as the min-imum on good mixed Stock Exchange collateral. Prime mercantile paper was moderately active at 4 to 4½ per cent. The belief is entertained that a fair measure of relief may be afforded to the money market, if needed, by offerings of bonds to the Treasury Department. The privilege to deposit gold at the Sub-Treasury for transfer to San Francisco was granted by the Treasury Department ter days ago, but has not as yet been availed of by the

street railroad syndicate.

MISSOURI PACIFIC —The heavy increase in the operating expenses of the Missouri Pacific Railway was thought to be due to the charging up of betterments for a previous period, but no official ex-

planation was furnished. UNITED STATES STEEL.—The United States Steel Corporation will, on April 1, have been in existence twelve months. It is estimated that its net earnings for that period will aggregate \$111,000,000, and this amount would probably have been augmented by several millions of dollars but for the lack of transportation facilities. It is calculated that for the year the balance applicable to additional surplus, new construction, etc., will be about \$25,600,900, equal to between 4 and 5 per cent on the common stock

NOT TO SELL -A director of the Driggs-Seabury Gun and Ammunition Company denies that the property will be sold to the American Ordnane Company and says that the capital will be in-creased. A stockholders' meeting will be held in a few days to vote on a plan of recapitalization. COPPER.-The copper report of James Lewis &

Son, of Liverpool, says: Son, of Liverpool, says:

Sales of standard copper with three months' prompt by the agents of the Amalgamated Copper Company have continued, but on a reduced scale. On the other hand, they have acquired warrants for cash and early delivery, whenever such purchases could be made without advancing the price. The result was a "backwardstlon" in the forward sales of its, per ton. As the "prompts" of the large quantities sold the last week of November will shortly fall due, and as the stock of ordinary standard copper is now reduced to less than 6,000 tons, of which 2,004 tons are Chill bars and 2,945 tons English standard, there seems little doubt that American electrolytic copper will be delivered as standard. In addition to the sacrifice thereby entailed, the value of the large quantities of the electrolytic copper produced by the Amalgamated company will be materially depreciated for some time to come.

STOCK EXCHANGE CHANGES.

A special meeting of the Governing Committee of the Stock Exchange was held yesterday after-neon to consider certain possible changes in the constitution and rules of the Exchange. Certain cases of rules which have become antiquated and of practices which are not authorized have been called to the attention of the board lately at the regular meetings, but the time of the board has been so taken up with its regular business that they have been passed over. Yesterday's meeting was called solely to consider these and kin-dred matters, and was intended as preliminary to others. No definite action was decided on and no announcement was made.

AMERICAN WOOLLEN COMPANY.

The balance sheet of the American Woollen Cor pany, as of January 4, 1992, compares with that of the previous years as follows:

Cash	1902. \$1,061,158	1901. \$1,670,023	Dec.	\$608,860
Accounts receivable, less discounts, etc. Inventories		5,112,788 13,089,578		1,541,684 598,771
*Plants and invest- ments	40,977.352	39,235,732	Inc.	1,741,620
Surplus wool under ster, credit		3,424,450	Due.	2,416,265
Totals	62,142,004	\$62,482,601	Dec.	\$339,597
	LIABILIT	CIES.		
Bank loans		\$4,912,000	Dec.	\$307,500

*Includes \$1.741.620 expended from surplus earnings. President Frederick Ayer says in his report tha the physical condition of the properties of the company is, on the whole, excellent. The police of enlargement and improvement was continue throughout the last year. A total of about \$3,500 plants since organization. This, in connection wit the heavy expenditures for rapairs, charged t

current expense, and the \$1,000,000 previously charged off for depreciation, insures the stability of the plant values. The report continues

OUTSIDE SECURITIES. The market for outside securities was generally

firm, but somewhat irregular for the copper shares which were inclined to fluctuate during the larger which were inclined to fluctuate during the larger part of the session. The trading was centred in the copper shares. Greene Consolidated Copper vas erratic. Shortly after the opening this issue tose a point to 36, but on freer offerings sold down to 24%, later it rose sharply to 24%, and finally closed at Z. Upward of from 5,000 to 7,000 shares good demand in the early trading, selling up to 10% but later reacted to %, about 1.500 shares changed hands. Montreal and Boston was active in the the early advance, selling back to 3%; about 7,000 shares changed hands. Union Copper sold at 4 and 3%. Corn Products issues were active; the common on purchases of about 1,500 shares sold up to 27, the preferred, however, lost about 15 point to 82. Dominion Securities continued strong and active, making another high record, selling up to 105%, about 2,006 shares were dealt in. Hacken sack Meadows Company was traded in to the extent of 2,599 shares, from 62% to 60%. Mexican National common sold at 18%. Otis Elevator common American Can preferred at 59. Standard Oil was in better demand, advancing about 3 pe cent to 6.0. Metropolitan rights sold at 10 North orn Securities sold down to 101%. The marke closed generally steady, but irregular for the cop
